

Morley Haskim for Councilor in the Township of McKellar

Hello to all taxpayers in the Township of McKellar.

Let me introduce myself

Where you from? I was fortunate enough to be born and raised right here in McKellar Township on a small farm in Broadbent. I went to a McKellar one-room school house in Hemlock until it closed and then we moved on to a two-room school in McKellar village until it closed after grade 6. After that we moved to McDougall Public and Parry Sound High.

What then? I went to the GTA to work for a decade and then was fortunate enough to get the opportunity to move home and start a building contractor business right here in McKellar. For three decades, I helped many new residences build their future right here.

Community, why? Enrolled my young daughters in McKellar minor ball and went on to coach and be involved in many recreational programs. In 1991 ratepayers saw me as a young new face that should be on Council. Along with different rolls in our community, I stayed on Council for twelve years until I decided to take time from politics to focus on my business. In 2014, again I decided to run for a Council seat and am still here, celebrating my 20th year as a McKellar Council Member.

Nice, but what have you got to offer now? I guess the same thing I have given all along. Some enthusiasm and a common-sense approach. I look upon and reach out to all taxpayers the same, whether you have been here forever, 30 years, 10 years, or just moved in. Whether you are a permanent or seasonal resident, we are all here together and let's enjoy our time here as much as possible.

Stay tuned! I will send this above info to the MLCA group so they can share it with all of you. Hopefully this information gives you some insight as to who I am. I will follow up with some of my thoughts and goals going forward for the next four years.

Enjoy the rest of our McKellar summer, **the weather has been GREAT!**

Thanks, Morley
