

I believe transparency is an absolute must. Keeping the people better informed by providing them opportunity through more public council meetings which would then allow for more consultation before major decisions or projects are being decided.

I have over 17 years of council service (5 terms on council). I have worked together with previous councils with great success, for example we purchased the property and created Minerva Park which was the beginning of the McKellar Market. The construction of Veterans Memorial Bridge, new Fire Hall, skating rink etc. etc. I worked on Official Plans and Zoning By-Laws for McKellar. I was part of council that worked with other area Townships in reaching a financial agreement for the construction of The West Parry Sound Hospital.

I believe what McKellar needs this new term of council is financial responsibility. Not buy now worry about paying later, good hands on governance. I will strive to improve employee relations and stability of the workplace.

People have the right to take gambles and risks with their own money, however I believe taxpayer money should not be gambled or put at risk. Spending public money should not be done without a great deal of thought. Decisions made by me will be made on public input presented, according to facts and financial costs.

McKellar Township was debt free during my term ending 4 years ago. We were able to accomplish a lot of things and stay that way.
